

Validation Vouchers for Gated Hourly Parking

Definition and Purpose

Validation of gated hourly parking is currently done by vouchers with the value of time specified. This defines prepayment for department guests, special events, customer or conferences being held in gated hourly parking lots.

Rules and Regulations

- GT Departments, Hotel, Global Learning Center, Tech Square businesses, Vendors/Other entities have the ability to pre-purchase parking in specified gated hourly parking lots.
- Vouchers may be purchased on-line at www.pts.gatech.edu via the on-line form.
- Standard rates are displayed at each gated hourly parking lot.
- Rates are determined for validated parking depending on the area, time needed, number of vouchers purchased at one time, and length of stay.

Restrictions

- Lots that are setup for validation are Area 2 (west of Student Center), Area 3 (west of W02 Student Center deck), Area 6 (adjacent to GT PTS office), W23 (State Street Deck) and E81 in Tech Square (adjacent to the GT Hotel/GLC).
- If vouchers are pre-paid for a specified amount of time that is less time than the time the car actually was in the lot, the difference is to be paid before the gate arm raises and the car is allowed to leave.
